**14th International Course on
Diagnostics and Surgery of
Salivary Gland Diseases in
Consideration of Minimally
Invasive Techniques**

October 25th – 28th, 2017

Department of ENT
Head & Neck Surgery
FAU University of Erlangen-Nuremberg
Head: Prof. Dr. Dr. h.c. Heinrich Iro

Dear colleagues,

We are pleased to announce our 14th international workshop and course on salivary gland diseases together with well known specialists in this field.

Course lectures will cover basics, as well as state of the art procedures and are furthermore focused mainly on the practical lessons. The course is suited not only for residents getting "hands on" experience in salivary gland diagnosis and therapy, but also for experienced surgeons to learn more about the most recent advances in diagnostics and therapy. Besides continuing medical education, the course is designed to encourage exchange of experience in a cooperative atmosphere. Due to the growing interest the course is also focused on the development of minimally invasive surgical techniques and procedures.

The intended limited number of participants will have the opportunity to perform all established operative procedures of salivary gland surgery (cadaver dissection), to train in sialendoscopy under almost real conditions (fresh frozen cadavers) and to learn microsurgical techniques (rat specimens). By visiting the operating rooms and arrangements of our department for live surgery/procedures and the Institute of Anatomy (Head: Prof. L. Bräuer) with its excellent equipment, individual teaching by the team of experts is provided.

We are looking forward to meeting you in Erlangen!

Heinrich Iro

14th International Course on Diagnostics and Surgery of Salivary Gland Diseases in Consideration of Minimally Invasive Techniques

Program

Wednesday October 25th, 2017

- 08.15 Registration
- 08.30 Reception and Introduction
- 09.45 Basic Lectures: Clinics, Imaging, Pathology, Diagnostics in Salivary Gland Diseases
- 12.30 Lunch
- 13.00 Diagnosis and Treatment of Benign Salivary Gland Tumors and Salivary Gland Malignomas

Thursday October 26th, 2017

- 07.45 Live Surgery, Hands-on Course: Microsurgery
- 12.00 Lunch
- 13.00 Live Extracorporeal Lithotripsy/Sialendoscopy
- 17.00 Minimally Invasive Techniques in Obstructive Salivary Gland Diseases
- 20.00 Congress Dinner

Friday October 27th, 2017

- 07.45 Live Surgery, Hands-on Course: Microsurgery
- 12.00 Lunch
- 13.00 Complications after Salivary Gland Surgery
Surgery of the Paralyzed Face
Reconstructive Surgery of Parotid and Cheek Region
Botulinum-Toxin in Salivary Gland Diseases

Saturday October 28th, 2017

- 07.30 Hands-on-Course: Sialendoscopy/Cadaver Dissection
- 14.00 End of Course

Anmeldung / Registration:		Kursgebühr / Fees: € 650.00 / € 350.00	
Vor- und Nachname / First Name, Last Name		Überweisung an: / Cash order to:	
Straße / Street		Bank: Sparkasse Erlangen, Germany
